Topic: **Discharging Dialysis Patients -- New Sites of Care & Delivery**

Speaker: **Richard Cabrera** - Senior National Account Manager for Post-Acute Commercial Operations – West Division and is responsible for 27 states with Fresenius Home Care Products. Richard has been in the dialysis industry since 1996. He has held positions as a Reuse Technician, Certified Hemodialysis Technician, Water Treatment Technician, and a Home Training Nurse on the patient care side of the industry. During his time as a Home Training Nurse, he has trained hundreds of patients to transition home. He has also been a Patient Care Partner for his Father, when he became a Home Hemodialysis Patient in 2006. Richard has been working on the product side of the business for the last 11 years promoting growth and education in Home Modalities as an Area Manager, Clinical Consultant and a Therapy Specialist. He has been a guest speaker/panelist for several industry conferences all over the country.

- Objectives:**
- Discuss presenting patients with all treatment options – including differences in treatment frequency.
 - Describe off-site dialysis challenges that may be alleviated due to operational efficiencies of on-site dialysis
 - Identify the opportunity of on-site dialysis as a means to transition more patients to home dialysis.
